Kolkata, India

PROFESSIONAL SUMMARY

Aspiring UX/UI designer and frontend developer with a user-centered design mindset and hands-on experience in building intuitive interfaces using React and Tailwind CSS. Passionate about applying human-centered design principles in AI-driven products, demonstrated by developing an end-to-end AI-powered career platform. Proficient in independent work and clear communication through documentation, presentations, and collaborative hackathons. Seeking to advance into a UX/UI-focused role and deepen expertise in design systems, prototyping, and data-informed design practices.

EDUCATIONS

Bengal Institute of Technology (Techno India Group) | Kolkata, India

Sep 2023 - Jul 2027

Bachelor of Technology (B.Tech) in Information Technology

CGPA : 6.5

- Expected graduation: May 2027

PROJECTS

TalentForge — AI Mock Interview & Resume Optimization Platform | Website

Apr 2026 - Present

Self Project

Developed a full-stack AI-powered career preparation platform to assess resumes against target roles, identify skill gaps, and generate customized resume content.

- Designed user-centered interfaces and workflows for resume analysis and mock interview experiences, translating complex AI feedback into clear, actionable steps.
- Engineered dynamic AI interviews with adaptive questioning and real-time feedback to enhance user engagement.
- Implemented resume validation, multi-format text extraction, interview attempt tracking, and user authentication to ensure a seamless user experience.
- Facilitated downloads of optimized resumes tailored for specific job roles.

Technologies / Tools Used : React, TypeScript, Node.js, Python, MongoDB, Groq AI, Tailwind CSS, REST APIs, WebSockets

raw-power-athletics | Website

Aug 2026 - Present

Self Project

- Developed a comprehensive web application for athletic training using Express and SQLite.
- Implemented dynamic visualizations with Three.js to enhance user engagement.
- Designed responsive layouts with CSS, HTML, and JS to ensure optimal user experience across devices.

Technologies / Tools Used : Express, SQLite, Three.js, CSS, HTML, JS

SKILLS

Databases :	MySQL, MongoDB
Frameworks & Libraries :	React, Tailwind CSS, Three.js, Framer Motion, GSAP
Languages :	English, Hindi
Programming Languages :	Java, TypeScript
Soft Skills :	Wireframing, Prototyping, User-Centered Design, User Flow Mapping, Visual Composition
Tools & Platforms :	Git, GitHub, Vite

AWARDS & ACHIEVEMENTS

- Semi-Finalist, ET-AI Hackathon 2026 – The Economic Times
- Participant: Machine Learning Hackathon (IIT Bhubaneswar)
- Participant: Shaastra Smart City Challenge (IIT Madras)
- Participant: Project Horizon: GPAI Case Competition (IIT Madras)
- Participant: EY Techathon 6.0 (EY)
- Participant: HackWithUttarPradesh 2025 (Chandigarh University)
- Participant: Frontend Battle – Vibe Coding Competition (IIT Bhubaneswar)
- Participant: Ethos Hackathons 2025 (IIT Guwahati)
- Participant: HP Power Lab 2.0 (HPCL)
