

SUSANT KUMAR

Aspiring UX/UI designer and frontend developer

☎ 8420012233 ✉ susantnaman@gmail.com 📧 susant-kumar-510687356 📍 Kolkata, India

PROFESSIONAL SUMMARY

Aspiring **UX/UI designer** and **frontend developer** with a user-centered design mindset and hands-on experience in building intuitive interfaces using **React** and **Tailwind CSS**. Curious about the application of human-centered design principles in AI-driven products, demonstrated by developing an end-to-end AI-powered career platform. Proficient in independent work and clear communication through documentation, presentations, and collaborative hackathons. Seeking to advance into a UX/UI-focused role and deepen expertise in design systems, prototyping, and data-informed design practices.

EDUCATIONS

Bengal Institute of Technology (Techno India Group) | kolkata

Sep 2023 - Jul 2027

Bachelor of Technology (B.Tech)

CGPA : 6.5

- **B.Tech in Information Technology**, expected graduation in **May 2027**

PROJECTS

TalentForge – AI Mock Interview & Resume Optimization Platform |  Github

Apr 2026 - Present

Self Project

Developed a full-stack **AI-powered career preparation platform** to assess resumes against target roles, identify skill gaps, and generate customized resume content.

- **Designed** user-centered interfaces and workflows for resume analysis and mock interview experiences, translating complex AI feedback into clear, actionable steps.
- **Engineered** dynamic **AI interviews** with adaptive questioning and real-time feedback to enhance user engagement.
- **Implemented** resume validation, multi-format text extraction, interview attempt tracking, and user authentication to ensure a seamless user experience.
- **Facilitated** downloads of optimized resumes tailored for specific job roles.

Technologies / Tools Used : React, TypeScript, Node.js, Python, MongoDB, Groq AI, Tailwind CSS, REST APIs, WebSockets

raw-power-athletics |  Github

Aug 2026 - Present

Self Project

- Developed a comprehensive web application for athletic training using **Express** and **SQLite**.
- Implemented dynamic visualizations with **Three.js** to enhance user engagement.
- Designed responsive layouts with **CSS**, **HTML**, and **JS** to ensure optimal user experience across devices.

Technologies / Tools Used : Express, SQLite, Tjthree.js, CSS, HTML, JS

SKILLS

Databases : MySQL, MongoDB

Frameworks & Libraries : React, Tailwind CSS

Languages : English, Hindi

Programming Languages : Java, TypeScript

Soft Skills : Wireframing, Prototyping, User-Centered Design, User Flow Mapping, Visual Composition

Tools & Platforms : Git, GitHub

AWARDS & ACHIEVEMENTS

- **Finalist, India Innovates 2026** – National-Level Hackathon
- **Semi-Finalist, ET-AI Hackathon 2026** – The Economic Times
- **Participant, Machine Learning Hackathon** – IIT Bhubaneswar
- **Participant, Shaastra Smart City Challenge** – IIT Madras
- **Participant, Project Horizon: GPAI Case Competition** – IIT Madras
- **Participant, EY Techathon 6.0** – EY
- **Participant, HackWithUttarPradesh 2025** – Chandigarh University
- **Participant, Frontend Battle (Vibe Coding Competition)** – IIT Bhubaneswar
- **Participant, Ethos Hackathons 2025** – IIT Guwahati
- **Participant, HP Power Lab 2.0** – HPCL
